

**Secretary:**

**Angela George**

I have been a forester for the Missouri Department of Conservation for 14 years. I have a Master of Science degree in Forestry from the University of Missouri and a Bachelor of Science degree in Biology from Truman State University. Prior to being a forester, I've held such varied positions as wildlife biologist, volunteer program coordinator, a genetic purity specialist, an optician, and as a lighthouse tour guide. I currently serve on the MU School of Natural Resources Advisory Council and am on the Board of Directors for the Greenbelt Land Trust of Mid-Missouri. I'm known as Central Region's unofficial copy editor, I like to come up with ways to make processes more efficient, and I enjoy learning new things in the field of forestry. I enjoyed my previous term as MOSAF chapter secretary and would be happy to continue to serve the chapter in this capacity.
