

## Expressions Of Gratitude For SAF Membership Sponsorships By MOSAF

My name is Luke Stancil and I'm a junior forest resource management major at the University of Missouri. I am originally from Grayslake, Illinois which is about an hour north of Chicago. A career goal of mine is to work for the Missouri Department of Conservation as a resource forester. I really enjoy living and recreating in Missouri and I'd like to be able to give back to the conservation efforts that make Missouri such a great state. As far as hobbies go, I enjoy hiking, camping, and kayaking as well as hunting and fishing.

I'd like to thank the MOSAF members that made my membership to SAF a reality. I attended the Salem meeting in the fall and the MNRC meeting this

spring. I really enjoy being a part of SAF and I'm really happy that its finally official!! Thank you again and I'm looking forward to the next time I'll be at a MOSAF meeting!

Best regards,  
Luke Stancil

Thank you very much for working on getting us sponsored , I greatly appreciate it and am glad to be a part of this organization.

My name is Kevin Tosie. I am a junior studying forestry with an emphasis in forest ecology, with a minor in geography and I am also working towards my GIS certificate. I am from about 30 miles south of the St. Louis area, Imperial, MO. As far as my career goals are at this moment, I do not have a specific career in mind, I am very open. I do know that I want to be a part of either forest health, or sustainable forestry, which is where my true passion is. My hobbies include kayaking all of Missouri's beautiful rivers, doing cleanups with Missouri River Relief, camping, hiking, and studying renewable energy.

Thank you to the members of MOSAF for your sponsorship. I greatly appreciate your contribution to my membership and look forward to future events with MOSAF. I am grateful to be a part of the first 4 members to receive sponsorship funding through MOSAF and look forward to future events with this society.
